CARABINERO

Hispanmare was founded in 1953, it is a family-owned business which is currently run by third generation employees. The company's headquarters are located in Adra, Southeast Spain. We love working with them because they devote themselves to sustainable practices and fully acknowledge their corporate responsibility.

They are unusual in the fact that they do not outsource any of their operation. Meaning that they control the entire process from catching the fish until it is delivered to the customer. This ensures that quality is never compromised.
